Data Driven Detroit

Critical Link in Detroit's Food System

- Food retailers with liquor licenses:
 - ▣ 92% of EBT vendors are fringe food locations (convenience/"party" stores)
 - ▣ Detroit residents live an average of .7 miles from one of these establishments
 - ▣ Detroit residents live on average twice as far from a grocery store

Research Methodology

- 207 surveys of establishments with liquor license and EBT
- Random sample (one-fifth sampling rate)
- Data collected September 2010 – May 2011
- Survey criteria from Michigan Department of Agriculture (MDA)
- Secondary Data: Census Bureau – 2010 census and ACS (2005-2009)

A Two-Tiered Food Retail Environment

Top Tier Retailers

- Ensure the cleanliness and safety of their establishments
- Facilitate trust and positive relations with the community
- Enjoy repeat customers and an enhanced bottom line

Low Tier Retailers

- ❑ Sell unsafe, expired, or dangerous food products in an unsanitary environment
- ❑ Put consumers and the public at risk
